

SPINAL RADIOGRAPHY

PRESENTED BY

CARRIE JURNEY, DVM, DACVIM (NEUROLOGY)

Dr. Carrie Journey is a graduate cum laude of the University of Georgia CVM. She also holds a degree in Neuroscience from Emory University. She did an internship at a private practice in Seattle, then completed her neurology residency at the University of Pennsylvania. Dr. Journey became board certified in neurology and also received her Advanced Neurosurgery Certificate in 2009 while in private practice here in the Bay Area. In 2015, Journey Veterinary Neurology was established which includes mobile neurosurgery, consultations, and lectures delivered both in person and online.

In this lecture, Dr. Journey will present practical aspects of spinal radiography for the practitioner. She will also review in depth the diseases that can be reliably diagnosed on radiographs and discuss their cardinal findings. This popular lecture is heavy on clinical examples and pictures while answering such questions as "Is that narrowed space a slipped disc?" or "What does spondylosis really mean?"

Come prepared to start off the new year with an evening that is both informative and enjoyable.

Spinal case in the making!

Could You Be the One?

AnimalScan is seeking an **associate veterinarian with a strong interest and experience in anesthesia** who is looking to learn and further develop that skill set. To find out more about AnimalScan, please visit www.animalscan.com.

This veterinarian will be responsible for patient care and management, especially anesthesia, during MRI scans at our new Campbell location. The individual will work closely with **SAGE Centers for Veterinary Specialty and Emergency Care doctors and staff**, including the opportunity to participate in rounds, as well as manage client communication and MRI referrals from outside the SAGE practice. The Campbell veterinarian will work closely with our MRI tech to facilitate quality patient care and imaging, as well as overall management of the day-to-day activities at this facility.

We are seeking someone interested in anesthesia as it relates to challenging patients and who has the ability to be **agile and flexible** in managing a daily schedule. We seek a **team player**, who can work well with other DVMs and veterinary technicians on a daily basis. Training and supervision of this position will be done with our Medical Director and Board Certified Anesthesiologist in Redwood City, and **real-time case consultation** will be available for challenging patients. Clearance to work around a 1.5 Tesla superconducting magnet is required.

Benefits include vacation, assistance with CE, medical, prescription, vision, dental, life, AD&D, short-term disability and long-term disability, flexible spending account, pet insurance and 401k plan. Workday is Monday-Friday with no emergency or weekend work unless desired by the candidate. Salary is commensurate with experience. For questions regarding the position, contact Dr. Kris Kruse-Elliott at AnimalScan Redwood City, (650) 480-2001.

To apply, send resume and references to Dana Guffy, Director of Human Resources for AnimalScan at dana.guffy@animalscan.org.

Uh-oh! There's Dad!

SERGEANT RECKLESS, AMERICA'S WAR HORSE

In October 1952, a small group of United States Marines from the Recoilless Rifle Platoon, Anti-tank Company, 5th Marine Regiment, 1st Marine Division on duty in Korea needed a pack horse to carry heavy munitions into battle. From a racetrack in Seoul, they purchased a little sorrel mare with a blaze and three white stockings that was of Mongolian and Thoroughbred descent. Back at their base camp, these Marines found that she not only learned fast and worked hard, but considered herself one of them. She was allowed to roam freely through the camp, entering tents to sleep on cold nights and joining the men in eating almost anything such as sandwiches, scrambled eggs, beer, Coke and even \$30 worth of poker chips. She served in numerous combat actions during the Korean War, carrying supplies and ammunition as well as evacuating wounded soldiers. Amazingly, she quickly learned each battlefield supply route so she often traveled to deliver supplies in 300-pound loads by herself without a handler. They named her "Reckless" but her middle name could have been "Fearless". The highlight of her military career came in March 1953 during the Battle for Outpost Vegas, known as the most vicious of the entire war. In a single day Reckless made 51 solo trips to resupply multiple front-line units. She was wounded in combat twice, given the battlefield rank of Corporal in 1953, then a battlefield promotion to Sergeant in 1954 after the war had ended. Reckless was the first horse in the Marine Corps known to have participated in an amphibious landing. Following the war, Reckless was awarded two Purple Hearts, a USMC Good Conduct Medal and several other military honors. Her wartime service record was featured in the Saturday Evening Post and in LIFE magazine as being one of America's Top 100 All-time Heroes.

After the war, Reckless was retired and brought to Camp Pendleton, California with a homecoming celebration tour that included TV appearances and welcome parties from New York City to San Francisco. She was officially promoted to Staff Sergeant in 1959 by the Commandant of the Marine Corps at a formal ceremony in her honor at Camp Pendleton. A plaque and photo were dedicated at the stables there. Reckless lived out her life in the regal fashion she deserved until she passed away on May 13, 1968 as the only horse to hold official rank in the United States Marine Corps. Appropriately, a full-size statue of Reckless was dedicated July 26, 2013 at the National Museum of the Marine Corps in Quantico, Virginia.

The best and most complete biographical story of *Sergeant Reckless* and her heroism is told in a book of that title published in 2014 by Robin Hutton. Hers is an incredible tale of bravery under fire coupled with the warm camaraderie amongst Reckless and her fellow Marines.

NOR CAL
VETERINARY SURGICAL

Orthopedic : Neurosurgery : Soft Tissue : Surgical Oncology
Minimally Invasive/Interventional Radiology : CCRT/Physical Rehabilitation
Arthroscopy/Laparoscopy/Thoracoscopy

415.683.7930 swells@norcalvetsurg.com www.norcalvetsurg.com

Nor Cal Veterinary Surgical continues to set the gold standard in MOBILE SURGICAL support for your hospital, patients, and clients.

Available, Responsive, Efficient

24/7- Always available, period. The phone never leaves our side so that your patients and clinicians always have the support they need. Nor Cal can schedule elective procedures for after hours or weekends to maximize client and hospital convenience. We have been, and continue to be, available for case consultation by phone and email 24/7.

Rapid Response: most elective cases scheduled within next 7 days; average return phone call for case consult less than 1 hour.

Efficient: typical OR time under 1 hour most cases, including TPLO/TTA and fracture repair.

Certified, Specialized, Experienced

Certified: NCVS surgeons are board certified Diplomates of the American College of Veterinary Surgery with four to five years of formal post-doctoral training. If you tell a client you are bringing in a specialist, make sure they are board certified in their field.

Specialized: NCVS surgeons have a special interest in orthopedics. If your mobile surgeon doesn't do total hip replacements, consider their level of expertise... do they offer all options for stifle stabilization (TPLO and TTA and Tightrope and traditional lateral stabilization)? Do they offer interventional pain management techniques? Minimally Invasive procedures? Arthroscopy?

Nor Cal does! If your current options don't, it might be time for an upgrade to Nor Cal...

Experienced: providing board-certified surgical services to the Bay Area since 2009.

Call Nor Cal today...improve patient outcomes, client satisfaction, and your hospital's bottom line...
